Pearl Harbor Day Beacon Lighting Ceremony

WALNUT CREEK, CA – NOVEMBER 18, 2016

On December 7th, Mount Diablo's Beacon will be relit by survivors of Pearl Harbor.

We invite you to attend the ceremony to pay tribute to the lives that were lost and honor our surviving veterans of Pearl Harbor.

The Sons & Daughters of Pearl Harbor Survivors, Chapter 5 are pleased to co-sponsor this 53rd Annual National Pearl Harbor Remembrance Day Ceremony with Save Mount Diablo.

"The Beacon lighting is a tribute to those individuals that lost their lives at Pearl Harbor", says Earl "Chuck" Kohler, one of the few remaining survivors in Contra Costa County.

However, the ceremony is also an opportunity to honor the survivors. When those who experienced Pearl Harbor are gone, the history is lost with them.

The Beacon on Mount Diablo was originally installed and illuminated in 1928 to aid in trans-continental aviation. It is one of the four guiding beacons installed along the west coast by Standard Oil of CA and is the only one known to still be operational.

After the attack on Pearl Harbor, the Beacon's light was extinguished during the West Coast Blackout, for fear it may enable an attack on California. It stayed dark until Pearl Harbor Day 1964, when Fleet Admiral Chester Nimitz, Commander in Chief of Pacific Forces during World War II, relit the Beacon in a commemorative ceremony and suggested it be illuminated every December 7th to honor those who served and sacrificed.

Since that day, Pearl Harbor Veterans and their families have gathered every December 7th to see the Beacon light shine once again.

The Beacon now shines brighter than ever since it underwent an extensive [restoration](#) process in 2013 (thanks to a campaign led by Save Mount Diablo) to ensure it continues to shine for many more years. The Pearl Harbor Survivors would like to know that the Beacon will shine long after they are gone.

The Beacon is lit at sunset and shines all night on this single evening each year.
